Intermediate
- **Darulmadinah School** 2024
Matriculum
A1

Skills

- Next.Js
- React.Js
- Javascript
- Typescript
- Tailwind Css
- Firebase/ Appwrite

Projects

- **Resume Builder**
Url: <https://resumemaker-abdullah.vercel.app>
Developed an AI-powered resume-building platform utilizing JavaScript to assist job seekers in crafting professional resumes efficiently. The platform offers a variety of HR-approved templates, real-time feedback, and smart suggestions to optimize resumes for Applicant Tracking Systems (ATS).
- **BlueeBerry An Ecommerce Web**
Url: <https://blueeberry.vercel.app>
Engineered a comprehensive e-commerce platform using Next.js for server-side rendering, Sanity as the headless CMS for dynamic content management, and Clerk for secure user authentication. The platform provides a seamless shopping experience with efficient product management and user-friendly interfaces.
- **ShareBook A post sharing platform**
Url: <https://blog-share-book.vercel.app>
: Created a post-sharing platform leveraging React.js for a dynamic user interface and Tailwind CSS for responsive design. ShareBook enables users to share and discover content effortlessly, fostering an interactive community with a focus on user engagement and accessibility.
- **Smart Marksheets**
Url: <https://smart-marksheet-je3e.vercel.app>
Developed a digital result-sharing platform that offers graphical representations of academic performance and AI-based improvement suggestions. ExamInsights allows students to visualize their exam results through intuitive charts, receive personalized insights, and track their progress over time with detailed reports.
